*work smarter*

*work safer*

*work faster*

- Reduce damage & waste
- Optimise use of storage areas
- Overcome tight sites with difficult access
- Give your sub-contractors a better service
- Multi tasking labour - crane operators when trained are operators/slingers/signallers
- Substantial savings when compared with forklift & driver
- Substantial savings when compared with mobile crane visits

*Reduce prelim costs*

- Reduce / eliminate manual handling
- Efficient distribution and positioning of materials.
- Safer handling & loading bays
- Less mobile plant means less traffic management
- Cleaner, tidier therefore safer sites
- Silent operation, eco & environmentally friendly

*Health & safety  
just got easier*

- Erected & commissioned in 6 hours
- 4 operatives can be trained in 3 days
- Save time, reduce waste, cut overheads
- Reduced sub-contractor costs
- Materials placed where you need them...when you need them
- Higher productivity, more flexibility

*Saving money  
everytime*
